Case Management Society of America, Iowa Chapter

What is the Case Management Society of America Iowa Chapter?

The CMSA Iowa Chapter is a not-for-profit organization

dedicated to supporting and developing the profession of case management. We are a chapter member of the national Case Management Society of America. Our members include health care professionals including case managers, nurses, therapists, social workers and benefit administrators from Iowa.

What is Case Management?

Case management is a collaborative process of assessment, planning, facilitation, and advocacy for options and services to meet an individual's

health needs through communications and available resources to promote quality cost-effective outcomes.

Why is CMSA Iowa so important?

As any case manager knows, the decisions we make every day with patients can be difficult and multi-faceted.

While some patients require coordination of care that is well-defined for a condition, others require more time and research. The Iowa Chapter of the Case Management Society of America provides a large peer group of case managers for networking. It also provides educational opportunities for all case managers interested in learning more about state-of-the-art medical treatments for patients with acute, chronic or catastrophic conditions.

How will I benefit from joining?

- Excellent educational and networking opportunities available to enhance the professionalism and effectiveness of our members.
- Annual Conference and professional development programs.
- Get involved and stay alert to local information and resources.
- Access to the membership directory, including all national CMSA members.
- Earn CEU and CCM credit.

What CMSA Iowa Members are saying...

"CMSA helps me cut through the clutter and stay in touch with what's important to know and what's happening in the industry."

"CMSA professional development is second to none in helping me to better serve my clients."
